## MINISTRY OF TRANSPORTATION AND INFRASTRUCTURE

### \$54 MILLION FOR SOUTH PEACE HIGHWAYS AND SIDE ROADS

South Peace families will benefit from a provincial investment of almost \$54 million in highways in the South Peace this year, creating local jobs and improving the condition and safety of roads in the region.

This year, more than 26 km of local side roads will be paved or seal-coated. This includes widening, strengthening and surfacing 9.5 km of Stewart Lake Road. Various side roads will be strengthened, gravelled and graded, including Stuckey Road, Alderdale Road and North Rolla Road. There will also be an enhanced dust suppression program this year.

Work will also begin on various passing lanes and intersection improvements along Highway 2 and Highway 97, and repair work will continue on roads affected by the 2011 Peace flood.

Of the 280 original flood sites on the highway network, the remaining 53 sites will undergo further repairs this year. Projects to restore highway infrastructure include the construction of the replacement bridge across Brassey Creek on Highway 52 and the completion of repairs through the Pine Pass on Highway 97.

This year's program again places a priority on creating jobs for local workers, with \$13 million targeted for day labour projects utilizing local labour and equipment.

Over the past 10 years, the Province has invested nearly \$570 million to improve the highway network and community infrastructure in the South Peace.

Quotes:

Transportation and Infrastructure Minister Blair Lekstrom - "We continue to invest aggressively in road improvements throughout the South Peace to ensure our transportation network serves our communities well. The combination of industrial use and local traffic has an impact on the roads, and this year's program will improve our highways and rural side road network in the region. This ensures families living in the area have a safe, efficient road network they can rely on.
