B.C. TAKES FIRM STAND AGAINST MUD BOGGING

Ripping around in the bush and harming Crown land on an ORV (Off-road Vehicle) might seem like recreation to some people, but in B.C. it is a crime.

As the weather improves and camping season starts to get underway, more people will head out to responsibly enjoy the forests and range lands for recreational purposes. Unfortunately, irresponsible off-roading with ORVs, motorcycles or 4x4s, sometimes referred to as mud bogging, disrupts the ecological foundation of B.C.'s natural areas. In sensitive sites, the damage can be catastrophic.

Violation tickets for mud bogging are \$575, and other penalties may include towing or impoundment of vehicles, jail time and expenses related to habitat restoration.

The public are encouraged to report suspicious activities and environmental damage to the province's toll-free, 24 hour Report All Poachers and Polluters - RAPP line at 1-877-952-RAPP (7277) or from a cell phone *7277.

Quotes:

Steve Thomson, Minister of Forests, Lands and Natural Resource Operations: "Everyone is encouraged to enjoy public forests and range lands but to stay safe and tread lightly. Most people who use Crown land act responsibly but the damage caused by mud bogging is not only ugly, it has negative effects on precious fish and wildlife habitat."

Terry Wardrop, land & environment coordinator, ATV Association of BC "Spending a few hours on an ATV is one of the best ways to get out and enjoy the abundance of beautiful land in our province! As the recognized leader of ATV/UTV riding in B.C., we are big believers in responsible riding and environmental protection. We work with government and other stakeholders to improve safety and environmental initiatives and are pleased to see enforcement aimed at the few riders who fail to respect the land and trails."

Key Facts:

- * Offenders can be ordered to pay the costs of remediating the environment.
- * Vehicles can be towed or impounded and forfeiture can be sought.
- * Under section 7 of the Wildlife Act, a person commits an offence if they alter, damage or destroy designated wildlife habitat and they receive an automatic court appearance.
- * The Wildlife Act, the Motor Vehicle Act and the federal Fisheries Act can all be used to prosecute offenders who cause environment damage to Crown land.

***DID YOU KNOW...** You may be shocked to learn that pigs are proven to be very insightful animals. Scientists say that pigs have complex cognitive abilities. In laboratories, pigs play video games better than primates. Pigs can also dream and recognize their own names. In some studies, researchers identified more than 20 different squeals that pigs objectively respond to. Pigs listen to music. Mother pigs are known to sing for their young and newborn piglets can identify their mother's voice upon birth. Researchers were also able to teach several pigs to jump over dumbbells and fetch frisbees.*

Success: To laugh often and much, to win the respect of intelligent people and the affection of children, to earn the appreciation of honest critics and endure the betrayal of false friends, to appreciate beauty, to find the best in others, to leave the world a bit better, whether by a healthy child, a garden patch, or a redeemed social condition; to know even one life has breathed easier because you have lived. This is to have succeeded!
