CELEBRATING QUALITY CHILD CARE IN COMMUNITIES ACROSS BC

Spring has sprung! The month of May is here - and thousands of child-care providers across the province have an extra spring in their step - in celebration of Child Care Month in B.C.

Child-care facilities - and the dedicated, highly skilled child-care providers they employ - offer an array of play-based learning activities for babies, toddlers, and children. That means B.C. parents can pursue career, education and training opportunities, knowing their children are safe, happy and well-cared-for.

Quality child care comes in many different shapes and sizes - ranging from large, bustling group care facilities, to smaller, home-based programs. The focus of a centre typically reflects the needs of those they serve - for example, centres serving young parents may offer parent-skills training and tips alongside child care, helping to ensure better outcomes for young families.

Child-care centres serving Aboriginal children and families may incorporate traditional language, crafts or games, giving young children a chance to play, grow, and learn in a culturally relevant environment. For example, when you walk through the door of the Gingolx Headstart Daycare Centre, you're greeted by a nurturing atmosphere of playing, learning, and cultural activities for young children, including singing, drumming, and Nisga'a language learning opportunities. This centre, created with \$500,000 in major capital funding from the Ministry of Children and Family Development, is an integral part of the small Nisga'a Village of Gingolx (Kincolith) in Northwest B.C.

Communities, individuals, and organizations throughout B.C. have organized events in celebration of Child Care Month, which will be held throughout the province during May. The B.C. government is also recognizing the extraordinary work of child care providers by proclaiming May 19 as Child Care Provider Appreciation Day. The annual Child Care Awards of Excellence - honouring B.C. child-care professionals, organizations, and local governments who have demonstrated outstanding service to children and families - will be held May 26 in Vancouver.

Quotes: Mary McNeil, Minister of Children and Family Development: "Putting families first is a key priority for this ministry and government as a whole. We know that safe, high quality, accessible and affordable child-care is a priority for thousands of B.C. families. As we kick off Child Care Month in B.C., we want to shine the spotlight on child-care providers, who play such an important role in the lives of children and families. Thank you for all that you do, each and every day!"

A Message Of Thanks

THANK YOU!!! To the Chetwynd Arts Council for bringing in the University of Alberta Choir in support of the Little Prairie Elementary Music Program. It was a great performance!! Little Prairie Staff and Students

Humility does not mean thinking less of yourself than of other people, nor does it mean having a low opinion of your own gifts. It means freedom from thinking about yourself at all.

It is far more impressive when others discover your good qualities without your help.

CELEBRATING QUALITY CHILD CARE IN COMMUNITIES ACROSS BC

Continued from front page

Chief Councillor Nelson Clayton, on behalf of the Gingolx Village Government: "Education has always been a top priority for Gingolx - as we want to pass along our traditions, culture, and language on to the younger generations - leading the way into the future. The Gingolx Headstart Daycare Centre is very important to our community because it incorporates our language and culture in learning-based programming, and it encourages the true spirit of families and community connecting together."

Christine MacLeod, board member, Provincial Child Care Council: "The Provincial Child Care Council extends our congratulations and best wishes to child-care providers throughout the province as they celebrate Child Care Month. We appreciate their hard work and are grateful for their dedication and commitment to enhancing the lives of our children each and every day in their communities."

Mary Walters, Interior regional coordinator, on behalf of the BC Child Care Resource and Referral (CCRR) Program Regional Coordinators: "Child-care providers provide quality early learning experiences and care that help build a foundation of success and well-being for the children and families in B.C. CCRR programs are honoured to work with these professionals and commend them for their hard work. We encourage everyone to acknowledge and celebrate child-care providers, across B.C."

Quick Facts: * There are over 6,000 licensed child-care facilities in communities across B.C.

* Approximately 60 per cent of licensed facilities are group child-care and approximately 40 per cent are family child-care.

* Across the province, there are more than 11,900 actively licensed Early Childhood Educators and more than 4,000 Early Childhood Educator Assistants.

* There are 35 post-secondary training institutes offering early childhood education programs in B.C. * BC Child Care Resource and Referral Programs offer quality child-care referrals, resources and support to child-care providers and families in over 400 communities across the province. Child Care Resource and Referral Programs work in partnership with communities to enhance the availability and accessibility of flexible, responsive and inclusive quality child-care options and services.

* The annual investment in child-care subsidies, including special-need supports, for low- and moderate-income families is \$154 million this year. The subsidy program supports about 50,000 individual children each year. The income threshold for full subsidies has gone up from \$21,000 a year to \$38,000.

* The government has increased the maximum subsidy rates for care surrounding the school day from \$173 to \$200 for children in Grade 1 and up. Also, the subsidy rate for parents whose children attend ministry-designated Young Parent Programs has been boosted from \$850 to \$1,000 per child.

* The government has taken several innovative steps to bring in new early learning and childhood development opportunities, services and supports, such as introducing full-day kindergarten for B.C. families.

* The first phase of full-day kindergarten was implemented in September 2010, with more than half of the province's kindergarten students beginning full-day kindergarten. The remaining kindergarten students will begin in September 2011, which will bring the number of full-day kindergarten students to an estimated 40,000.

* The government is also continuing to invest in StrongStart BC programs and plans to expand the program across the province.

* 97,000 licensed child-care spaces are funded in communities around the province.

* The government provides over \$65 million for providers annually in child-care operating funding. More facilities are eligible for funding than ever before - with over 5,000 licensed child-care facilities across the province receiving funding.
